BILL R. WALKER Certified Public Accountant

Independent Auditor's Report

Board of Directors Arvin Community Services District Arvin, California

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arvin Community Services District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arvin Community Services District, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Arvin Community Services District's basic financial statements. The schedule of operating expenses is presented for purpose of additional analysis and is not a required part of the basic financial statements.

The schedule of operating expenses is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of operating expenses is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 5, 2019, on my consideration of the District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Arvin Community Services District's internal control over financial reporting and compliance.

Bill R. Walker

Bill R. Walker Certified Public Accountant Bakersfield, California February 5, 2019

MANAGEMENT DISCUSSION AND ANALYSIS

As management of the Arvin Community Services District (the District), we offer readers of the District's basic financial statements this narrative overview and analysis of the District's financial performance during the year ending June 30, 2018. Please read it in conjunction with the District's financial statements, which follow in this section.

Financial Highlights

The District's total net position increased \$ 455,856 or 3.9% over the course of the year's operations. This increase was primarily related to capital assets increasing .5%, current assets increasing \$1,011,215 or 46%, and water sales revenue increasing \$538,535 or 27.2% for the fiscal year ended June 30, 2018.

The District's total operational revenue increased \$535,788 or 25.2% during the year ended June 30, 2018. The components of the increase are as follows:

Increase in business and commercial water sales	\$ 94,270
Increase in residential water sales	444,264
Increase in residential water services	28,333
(Decrease) in connection fees	(31,079)
Increase in total operational revenue	\$ 535,788

The District's operating expenses increased \$147,230 or 5.5% during the fiscal year ended June 30, 2018.

The District's capital assets, before accumulated depreciation increased \$656,282 or 4.9% during the fiscal year ended June 30, 2018 as a result of operational fixed assets.

Overview of the Financial Statements

This annual report includes this management's discussion and analysis report, the independent auditor's report, the financial statements of the District and selected additional information. The financial statements also include notes that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the District report information of the District using accounting methods like those used by private sector companies. These statements offer short and long term financial information about its activities. The Statement of Net Position includes all of District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities). It also provides the basis for evaluating the capital structure of the District and for assessing the liquidity and financial flexibility of the District.

All the current year's revenues and expenses are accounted for in the Statement of Revenues and Expenses, and Changes in Net Position. These statements measure the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all of its costs through its contract revenue and contributions - other districts and other charges, as well as its profitability and credit worthiness.

The final required financial statement is the Statement of Cash Flows. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

Financial Analysis of the District

One of the most important questions asked about the District's finances is," Is the District as a whole better off or worse off because of the year's activities?" The Statement of Net Position, and the Statements of Revenues and Expenses, and Changes in Net Position report information about the District's activities in a way that will help answer this question. These three statements report the net position of the District and the changes in them. One can think of the District's net position, as one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, and new or changed government legislation.

Net Position

To begin our analysis, a summary of the District's Statements of Net Position is presented in Table A-1

Table A - 1
Condensed Statements of Net Position
June 30, 2018 and 2017

	2018	2017	Dollar Change	Percent Change
Current Assets Capital Assets Other Assets	\$ 3,211,190 9,747,786 11,106	\$ 2,199,975 9,545,168 12,876	\$ 1,011,215 202,618 (1,770)	46.0% 2.1% -13.7%
Total Assets	\$ 12,970,082	\$ 11,758,019	\$ 1,212,063	10.3%
Current Liabilities Long- Term Debt Other Liabilities	\$ 147,249 728,807	\$ 119,849 - -	\$ 27,400 728,807	22.9% NA <u>-</u>
Total Liabilities	876,056	119,849	756,207	631.0%
Unrestricted Net Position	3,075,047	2,093,002	982,045	46.9%
Invested in Capital Assets, net of Related Debt	9,018,979	9,545,168	(526,189)	-5.5%
Total Equity	12,094,026	11,638,170	455,856	3.9%
Total Liabilities and Equity	\$ 12,970,082	\$ 11,758,019	\$ 1,212,063	10.3%

As can be seen from the table above, total assets increased \$1,212,063 to \$12,970,082 at June 30, 2018 up from \$11,758,019 at June 30, 2017. The increase in total assets of the District was composed of three factors: current assets increased \$1,011,215, capital assets net of depreciation increased \$202,618, and other assets decreased \$1,770.

Table A-2 Condensed Statements of Revenues and Expenses and Changes in Net Position

Year Ended June 30, 2018 and 2017

	 2018		2017	 Dollar Change	Percentage Change

Budgetary Comparison

The following table is a comparison of the Board approved budget for 2018 against actual.

Table A-4
Budget vs Actual Comparison
For the Year Ended June 30, 2018

	Actual	Budget	Change	Percentage Change
Operating revenues:	<u>- 1000.01.</u>	<u>=~~g~.</u>	<u> </u>	<u> </u>
Water sales and services	\$ 2,670,869	\$ 2,261,289	\$ 409,580	18.1%
		30,000	. ,	-140.0%
Other operating revenues	(12,011)	30,000	(42,011)	-140.0%
Total operating revenues	2,658,858	2,291,289	367,569	16.0%
Operating expenses:				
Source of supply	7,452	16,000	8,548	53.4%
Pumping expense	596,337	670,000	73,663	11.0%
Transmission and distribution	1,255,283	880,258	(375,025)	-42.6%
Customer accounting	1,,	,	-	
Administrative and general	487,575	368,458	(119,117)	-32.3%
Depreciation and amortization	464,925	214,300	(250,625)	-117.0%
Depresiation and amortization	404,020	214,000	(200,020)	117.070
Total operating expenses	2,811,572	2,149,016	(662,556)	-30.8%
				
Non-operating revenue (expenses)	11,205	(54,500)	65,705	-120.6%
	<u> </u>			
(Loss) before contributions	(141,509)	87,773	(229,282)	-261.2%
,	, ,	·	, ,	
Capital contributions	597,365	1,907,722	(1,310,357)	0%
•			<u> </u>	
Change in net position	\$ 455,856	\$ 1,995,495	\$ (1,539,639)	
			<u> </u>	

Total operating revenue was above budgeted revenues due to increased metered water sales. Total operating expenses were above budgeted expenses by \$662,556 due to higher than budgeted source of administrative and general, transmission and distribution expense, and depreciation expense. Projected capital contributions were les than actual contributions by \$1,310,357.

Economic Factors and Next Year's Budget and Rates

New water rates approved on January 17, 2017, will result in a 15% increase each year for the next five years. The need for this increase was primarily based on the loan the district will be applying for from the state. This loan will be used to pay for the Arsenic Mitigation Plan Phase 2 which encompasses the construction of three new wells.

The budget for fiscal year 2019, and future years as indicated, will include capital improvements of:

- 1.) Arsenic Mitigation Plan \$8,100,000; \$2,700,000 for the construction of three (3) additional wells.
- 2.) Water Meter Replacement Program \$175,000 proposed per year, for the next ten (10) years to replace leaking and inaccurate residential water meters.
- 3.) Valve Exercising Program and Valve Replacement \$85,000 proposed per year, for the next five (5) years for annual valve replacement.
- 4.) City Well Number 1 The EPA has proposed to replace Well No. 1 on a comparable basis to to eliminate the possibility of contamination to the District's drinking water from the Brown & Bryant site. Well No. 1 is within 1,000 feet of the cleanup site. The District will have to pay for well site testing and planning which will be about \$150,000 - \$200,000.

Contacting District Management

This financial report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District at 309 Campus Drive, Arvin, California 93203.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Note 1 - Summary of Significant Accounting Policies

1-A. Financial Reporting Entity

The Arvin Community Services District (District) was formed on November 20, 1956 to provide municipal water service for the residents of the Arvin area. Arvin became an incorporated city in 1962 but did not assume the responsibility for water service. The District provides municipal water service to approximately 4,106 customers in the City of Arvin and surrounding county area. The district is governed by an elected five member Board of Directors.

1-B. Basis of Presentation

Fund Financial Statements - The fund financial statements provide information about the District's funds, including its fiduciary funds.

Proprietary fund types are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting.

Enterprise Fund-The District accounts for its activity using an enterprise fund, which is on the accrual basis. Capital assets and long-term debt (including all long-term debt obligations such as vacation pay and capital leases) are recorded in the fund. All revenues and expenses (rather than expenditures) are recorded, regardless of when they are received or paid. Depreciation of capital assets is recorded.

Fiduciary fund types are used to account for assets held by the District in a trustee capacity for others that cannot be used to support the District's own programs.

Retiree Benefit Fund - This fund exits to account separately for amounts held in trust for the District's Money Purchase Plan. The District contributes to the Fund through an agreement with management - 7% of the manager's salary.

1-C. Basis of Accounting

The proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Net Position should be reported as restricted when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 1 - Summary of Significant Accounting Policies - continued

1-C.Basis of Accounting - continued

Operating Revenues and Expenses - Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses result from transactions directly associated with the fund's principal services.

1 - D. - Assets, Liabilities, and Net Position

Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents are considered to be all highly liquid investments (including restricted assets) which are readily convertible into cash within ninety days of purchase.

Inventories

Inventories consist of residential water meters, pipes, and fittings. Inventory is valued at average cost based on a first-in, first-out (FIFO) inventory method.

Capital Assets

Capital assets are valued at cost when constructed or purchased. The District maintains a capitalization threshold of \$500. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives, are not capitalized. Depreciation of capital assets placed in service is computed using the straight-line method over the useful lives of the capitalized assets and is reported as an operating expense. Capital projects are depreciated when the asset is placed in service. The ranges of estimated useful lives of capital assets are as follows:

Asset Class
Buildings
Improvements
Equipment

Stimated Useful Life
39 years
20-40 years
5-10 years

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 1 - Summary of Significant Accounting Policies - continued

1 - D. Assets, Liabilities, and Net Position - continued

Customer Deposits

The District requires its customers to make a deposit before water services are provided.

Deposits are also required to reopen an account after it is delinquent and closed. At June 30, 2018, customer deposits totaled \$45,729. The balance is reflected in the billing system, in which the District is required to maintain a cash balance equal to the amount of deposits on hand.

Compensated Absences

Employees of the District are entitled to paid vacation and sick leave, depending on job classification, length of service and other factors.

Net Position

The District utilizes a net position presentation in accordance with GASB Statement 34, Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments as amended by GASB 63. Net position is categorized as invested in capital assets, net of related debt, restricted components of net position and unrestricted components of net position. These categories are defined as follows:

Invested in capital assets, net of related debt - The component of net position consists of capital assets, including restricted assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted components of net position - This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources (if any) related to restricted assets, if the asset results from a resource flow that also results in the recognition of a liability will be liquidated with the restricted assets reported.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 1 - Summary of Significant Accounting Policies - continued

1 - D. Assets, Liabilities, and Net Position - continued

Net Position - continued

Unrestricted components of net position - This component of net position is the net amount of assets, deferred outflows of resources, liabilities (if any), and deferred inflows of resources (if any), that are not included in the determination of net investment in capital assets or the restricted component of net position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Credit has and will be extended in the form of accounts receivable and service connection fees receivable to landowners and water users who are located primarily in the District's service area.

Fund Accounting

The District utilizes accounting for enterprise entities that account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Subsequent Events

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through February 5, 2019, the date the financial statements were available to be issued. There are no subsequent events considered material by management that would require disclosure in the financial statements.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 1 - Summary of Significant Accounting Policies - continued 1 - E. - New Accounting Pronouncements

In August 2018 the GASB issued **Statement No. 90**, **Majority Equity Interests** - **An Amendment of GASB Statements No. 14 and 61**. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component interests.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

In June 2018 the GASB issued **Statement No. 89**, **Accounting for Interest Cost Incurred Before the End of a Construction Period**. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

In April 2018 the GASB issued **Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements.** The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, Direct Borrowings and Direct Placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

NOTE 2 - DEPOSITS AND INVESTMENTS

2 - A. Summary of Deposits and Investments

Cash and investments at June 30, 2018 are classified in the accompanying financial statements as follows:

	Enterprise Fund
Deposits: Cash on hand Deposits in financial institutions Cash in County Pooled Investment Fund Cash Investments:	\$ 1,503 2,170,484 588,605

Total Cash/Investments and Cash Equivalents \$ 2,760,592

2 - B. Policies and Practices

The California Government Code requires California banks and savings and loan associations to secure the District's cash deposits by pledging securities as collateral. The Government Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor.

The fair value of pledged securities must equal at least 110 percent of the District's cash deposits. California law also allows institution to secure District deposits by pledging first trust deed mortgage notes having a value of 150 percent of the District's total cash deposits. The District may waive collateral requirements for cash deposits that are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The District, however, has not waived the collateralization requirements.

Investment in County Treasury - The District maintains cash balances with the Kern County Treasurer in an investment pool. The pool is non-SEC registered, but is invested in accordance with California State Government Code. The Kern County Treasury Investment Oversight Committee oversees activity in the pool for compliance to policy and code requirements.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

2-C. General Authorizations

Except for investments by trustees of debt proceeds, the authority to invest District funds deposited with the County Treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from its website. The table below identifies examples of the investment types permitted in the investment policy.

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 2 - Cash Deposits and Investments - continued

2 - D. Disclosures Related to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. All Agency investments are considered short-term investments with maturities of 12 months or less.

2 - E. Disclosures Related to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District is required to disclose the rating for all investments. Cash invested in the local Agency Investment Fund (LAIF) and the Kern County Treasury are considered "exempt from disclosure" under GASB Number 40. The investments held in cash with fiscal agent are federal treasury obligations and rated AAA at June 30, 2018.

2 - F. Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investments by maturity:

Investment Type	S & P Rating	Maturity Days	Reported Value	Fair Market Value			
Kern County Treasury Pool	NA	384	\$ 588,605	\$ 588,605			
Mutual Funds, Corporate debt and Equity instruments	NA	NA	<u>\$</u>	<u>\$</u>			

NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2018

Note 2 - Cash Deposits and Investments - continued

2 - G. Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the amount deposited by the public agencies.

GASB Statement Number 40 require that the following disclosure be made with respect to custodial credit risks relating to deposits and investments: none of the District's deposits with financial institutions in excess of federal depository insurance limits were held in uncollaterized accounts.

California law allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

As of June 30, 2018, the District's bank balance of \$500,000 (including the certificates of deposit) were insured, but \$574,076 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Note 6 - LONG-TERM DEBT

Note Payable State of California - State Water Resources Control Board Drinking Water State Revolving Fund Payment Schedule - Project Number 1510001 - 004P Agreement Number D1702012

Arvin Community Services District entered into a Agreement with the California State Water Resources Control Board on July 31, 2017 to provide a Planning Loan as a part of the Arsenic Mitigation Project - Phase II Test Wells & Project Design Program. The planning funded by this agreement is related to the possible construction / implementation project known as the Arsenic Mitigation - Phase II Test Wells and Design. This planning project will identify adequate test well locations, and evaluate water quality to ensure that no treatment would be required. The receipt of funding on this Agreement is not a commitment to and does not obligate the State Water Board to provide funding for any eventual construction/implementation project.

Amount of funding as per the Agreement is \$941,000. The eligible start date is February 1, 2017 and the work completion date is September 30, 2018. The District agrees to repay all Planning Funds commencing July 1, 2019 at an interest rate of one point seven % (1.7%) per annum. During the year ended June 30, 2018 the District received \$728,807 in funding under the Agreement and paid \$1,894.88 in interest.

Note 7 - EMPLOYEE RETIREMENT SYSTEMS

On January 11, 1988 the Board of Directors approved the establishment of a defined contribution pension plan (Money Purchase Plan) for the District's employees. This plan is presently administrated by John Hancock on behalf of management. The contribution rate of the Money Purchase Plan is 7 percent of management's annual salary.

In 2003 non-management employees joined Labor Union Local Number 220. The District has paid into the local union's non-management employee's retirement fund since 2004. The non-management employee's retirement plan is currently administered by the Construction Laborers' Trust. The District's contribution rate is \$1.40 per hour for all eligible employees, including the general manager.

Contributions to retirement plans total \$29,481 for the year ended June 30, 2018.

Note 8 - CONTINGENCIES

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2018.

NOTE 9 - ADVERTISING COSTS

The District expenses advertising costs as they are incurred. Advertising expenses for the year ended June 30, 2018 were \$3,550.

OTHER REPORTS REQUIRED UNDER GOVERNMENTAL AUDITING STANDARDS

Bill R. Walker Certified Public Accountant

Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of
Financial Statements Performed in Accordance
with Government Auditing Standards

Board of Directors Arvin Community Services District Bakersfield, California

I have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing* Standards issued by the Comptroller General of the United States, the financial statements of Arvin Community Services District (District) as of and for the year ended June 30, 2018, and the related notes to the financial; statements, which collectively comprise the District's basic financial statements, and have issued my report thereon dated February 5, 2019.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As a part of obtaining reasonable assurance about whether Arvin Community Services District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bill R. Walker
